DESIGN ENGINEER - JOB DESCRIPTION

Sapcote Engineering Ltd, Leicester

We have an exciting new opportunity for a **Design Engineer** to join us. You will be part of a 7-person design team working for a leading manufacturer of high-quality conveyors, platforms, automated systems and robotic solutions. The principle job activity is the commercial designing and detailing of automation equipment and engineering solutions using Autodesk Inventor (3D). The work is varied with many of our projects being bespoke engineering solutions.

DESIGN ENGINEER ROLE RESPONSIBILITIES

- 3D design and 2D detailing of bespoke conveyors and automated systems
- Issuing drawings and creating part lists
- Site surveys
- Liaising with project managers and clients as required
- Generate accurate detailed drawings and BOM for manufacture of all relevant components, including all requisite details such as materials, finishes and welds
- Review external drawings / sketches
- Create models / drawings to company standards
- Ensure quick turnaround times if design changes are required

DESIGN ENGINEER ROLE REQUIREMENTS

- 5+ years' experience working in mechanical design
- Engineering qualification (HNC, HND, degree etc)
- Experience (some or all) of Conveyor Systems, Automation Systems, Robotics, Special Purpose Machinery
- Experience with Autodesk Inventor advantageous
- Food industry experience advantageous
- Computer literate with clean driver's license

DESIGN ENGINEER PACKAGE

Competitive Salary (+ paid overtime)

IF YOU WISH TO BE CONSIDERED FOR THIS ROLE, PLEASE SEND YOUR CV AND COVER LETTER TO:
