APPRENTICE FABRICATOR / SHEET METALWORKER - JOB DESCRIPTION

Sapcote Engineering Ltd, Leicester

We have an exciting new opportunity for an **Apprentice Fabricator / Sheet Metalworker** to join us. You will be part of an 8-person fabrication team working for a leading manufacturer of high-quality conveyors, platforms, automated systems and robotic solutions. The principle job activity is the fabrication / sheet metalwork associated with food conveyor manufacture and access platforms. Another key element of the job includes site installations of manufactured systems which are often completed over weekends therefore some weekend availability will be required. The work is varied with many of our projects being bespoke engineering solutions.

We are looking to train a level 3 apprentice to a high skill level so they can eventually take on the role as a fully skilled Fabricator/Sheetmetal worker within our business. The successful candidate will be trained in all aspects of general fabrication & sheet metal work including TIG & MIG welding, hot works, heat treatment and distortion control along with installation skills.

APPRENTICE FABRICATOR / SHEET METALWORKER ROLE RESPONSIBILITIES

- Reading and interpreting of technical drawings
- Cutting materials into the required shapes, checking dimensions and thicknesses
- Welding / joining metal and other materials into a wide range of structures
- Use of all typical fabrication shop machinery
- Working on varied jobs and materials
- Working on your own initiative
- Conforming with safety regulations

APPRENTICE FABRICATOR / SHEET METALWORKER ROLE REQUIREMENTS

- Highly adaptable and flexible individual, with a hands-on approach and practical in nature.
- Minimum requirement of grades 4/C and above in both Maths and English to enable entry to a level 3 college course (duration: 4 years).

APPRENTICE FABRICATOR / SHEET METALWORKER PACKAGE

Competitive Apprentice Salary (+ paid overtime)

IF YOU WISH TO BE CONSIDERED FOR THIS ROLE, PLEASE SEND YOUR CV AND COVER LETTER TO:
