PROJECT ENGINEER - JOB DESCRIPTION

Sapcote Engineering Ltd, Leicester

We have an exciting new opportunity for a **Project Engineer** to join us. You will be part of a small project management team working for a leading manufacturer of high-quality conveyors, platforms, automated systems and robotic solutions. The principle job activity is project engineering support for the delivery of food industry conveyor systems and associated equipment. The work is varied with many of our projects being bespoke engineering solutions.

PROJECT ENGINEER ROLE RESPONSIBILITIES

- Preparing, scheduling, coordinating and monitoring all assigned engineering projects
- Site surveys, installation supervision and support
- Providing quotations for projects
- Liaising with project managers and clients as required
- Acquisition of appropriate staff, materials, and equipment
- Troubleshooting problems as they arise on a project – finding efficient and effective solutions

PROJECT ENGINEER ROLE REQUIREMENTS

- 5+ years' experience working in a project planning & site supervision role
- Good practical engineering knowledge essential.
- Experience (some or all) of Conveyor Systems, Automation Systems, Robotics, Special Purpose Machinery
- Experience with CAD programs (AutoCAD / Inventor) desirable, although training can be provided.
- Food industry experience advantageous
- Computer literate with clean driver's license

PROJECT ENGINEER PACKAGE

Competitive Salary (+ paid overtime)

IF YOU WISH TO BE CONSIDERED FOR THIS ROLE, PLEASE SEND YOUR CV AND COVER LETTER TO:

ENQUIRIES@SAPCOTE-ENGINEERING.CO.UK
